Location: Pune, Maharashtra

PROFESSIONAL SUMMARY

Backend Engineer with 4 years of experience building high-performance distributed systems using Go. Passionate about microservices architecture, gRPC, and system design.

SKILLS

Languages: Go, Python, Rust, SQL, Protobuf

Frameworks: Gin, Echo, gRPC-Go, NATS, Temporal

Infrastructure: Kubernetes, Docker, Istio, Envoy, Consul

Databases: PostgreSQL, CockroachDB, Redis, etcd, ScyllaDB

Cloud: GCP (GKE, Cloud Run, Pub/Sub, Spanner), AWS

Tools: Git, Buf, Wire, GoReleaser, Prometheus, Jaeger

WORK EXPERIENCE

Backend Engineer — Swiggy, Bangalore, Karnataka

May 2022 – Present

- Built high-throughput order processing system in Go handling 100K req/s
- Designed gRPC service mesh with Istio for inter-service communication
- Implemented distributed tracing using OpenTelemetry and Jaeger
- Created Go SDK for internal platform adopted by 15 engineering teams

Software Engineer — Directi (Media.net), Mumbai, Maharashtra

Mar 2021 – Apr 2022

- Developed event-driven microservices using Go and NATS messaging
- Built service discovery and configuration management using Consul
- Implemented rate limiting and circuit breaking with custom Go middleware
- Optimized garbage collection reducing p99 latency spikes by 40%

Junior Developer — ThoughtWorks India, Pune, Maharashtra

Jun 2020 – Feb 2021

- Built REST APIs in Go using the Gin framework
- Wrote integration tests and set up CI/CD with GitHub Actions
- Contributed to open-source Go libraries for JSON processing

EDUCATION

B.Tech Computer Science — VJTI Mumbai (2020)

CERTIFICATIONS

- Google Cloud Professional Cloud Developer
- Go Developer Certification (by Ardan Labs)
