LinkedIn: linkedin.com/in/rahulverma | GitHub: github.com/rahulverma

Location: Mumbai, Maharashtra

PROFESSIONAL SUMMARY

Machine Learning Engineer with 3 years of experience building and deploying production ML systems. Strong foundation in Python, deep learning frameworks, and MLOps best practices.

SKILLS

Languages: Python, R, SQL, C++

ML/AI: TensorFlow, PyTorch, scikit-learn, Hugging Face Transformers

Data: Pandas, NumPy, Spark, Airflow, dbt

Cloud & MLOps: AWS SageMaker, MLflow, Kubeflow, Docker

Tools: Git, Jupyter, Weights & Biases, DVC

WORK EXPERIENCE

Machine Learning Engineer — Jio AI Labs, Mumbai, Maharashtra

Aug 2022 – Present

- Developed NLP pipeline for resume parsing using BERT-based models
- Built real-time recommendation engine serving 5M+ users with <50ms latency
- Designed A/B testing framework for model evaluation in production
- Reduced model training time by 60% through distributed training on GPUs

Data Scientist — Fractal Analytics, Pune, Maharashtra

May 2021 – Jul 2022

- Built customer churn prediction model achieving 94% accuracy using Python
- Created automated feature engineering pipeline using Pandas and scikit-learn
- Deployed models as REST APIs using FastAPI and Docker
- Conducted statistical analysis and presented findings to C-suite

ML Research Intern — IISc Bangalore, Bangalore, Karnataka

Jun 2020 – Apr 2021

- Researched transformer architectures for text classification
- Published paper on efficient fine-tuning of large language models
- Contributed to open-source TensorFlow model garden

EDUCATION

M.Tech Data Science — IIT Delhi (2021)

B.Tech Computer Science — BITS Pilani (2019)
